

Simply go to the [Coach Connect](#) page and search for your coach. If they have a registered account with DRH Sports and are a verified coach, they will be listed on the page.

Once you have found your coach, you can send a request to link a player within your DRH Sports account. The coach will then review the request and accept or deny.

Please ensure that you only request to link with a coach that a player within your DRH account is currently working with. Or you have been given express permission by a listed coach, to send them a link request. Our Coach Connect service is meant to compliment competitions.
