

Below are the data fields that the coach will have to fill in if they choose to enter the match stats. This is also what the player would have to do if they also wanted to add a match report and add stats to it. All entries would be whole numbers. You do not have to add to the page exactly like this. I am happy for you to make it work how you think best on the page.

1)Total points played in match

2)Total points won

3)Total 1st serves in

4)Total 2nd serves in

5)Total Double faults

6)Total Aces

7)Total 1st serves in by opponent

8)Total 2nd serves in by opponent

9)Total Double faults by opponent

10)Total points won when 1st serve went in

11)Total points won when 2nd serve went in

12)Total points won when opponent’s 1st serve went in

13)Total points won when opponent’s 2nd serve went in

14)Total points played when rally 4 shots or lessNEW

15)Total points played when rally 5+ shotsNEW

16)Total points won when rally 4 shots or less

17)Total points won when rally 5+ shots

18)Total number of shots played in match

Below are the stats that the system will show the coach after they have entered values in the above fields.

1)Total points played in match (Copied from 1)
